

Starting Your Pumpkin Patch Party

Begin by reading Truffles' letter to the class and scanning the QR code to meet Truffles. Then depending on what the child has chosen allow them to speak to the class or read the "Collector card" (Optional* You can scan the QR code on the card to read the full story)

Then it's time to create your Pumpkin Patch!

Each student receives a pumpkin. Using your classroom crayons or markers, they can draw a face and decorate it however they like. Then everyone can add an eye patch to one of their pumpkin's eyes.

When the pumpkins are finished, display them together to create your own classroom Pumpkin Patch—a reminder that our eyes may all be a little different and that friends can support one another.

Stickers are included for each student as a little thank you for becoming one of Truffles' Pumpkin Patch Furriends.

A Little Something Special

You'll also find a special envelope just for the child who patches. Inside is a personal message from Truffles to remind them that they have a Furriend cheering them on.

Please give this envelope to the child privately.

Share Your Pumpkin Patch With Truffles!

Truffles would LOVE to see your finished Pumpkin Patch!

With appropriate parent and school permission, you are welcome to share your classroom creation and tag @Truffles_the_kitty, or post it on the Pumpkin Patch Project Facebook page. [Facebook.com/pumpkinpatchproject](https://www.facebook.com/pumpkinpatchproject)

Photos of the pumpkins alone are absolutely wonderful—children never need to be pictured or identified in order to participate.

Thank you for helping us create a little more understanding, encouragement, and kindness for children who patch.

There's always room for another Furriend in Truffles' Pumpkin Patch. 🍁🐾

With love,

Truffles the Kitty
